Darioush Khaledi and his wife Shahpar founded the Darioush Winery in 1997 with the unique ambition of not only seeking to make exceptional and distinctive wines, but to also share the art, architecture, culture and style that has inspired their journey through life.

Darioush Khaledi has been an enthusiastic collector of Bordeaux for over 40 years, yet he founded his own winery in the Napa Valley. His spirit of individualism, freedom and entrepreneurial drive brought him from a career in civil engineering in his native Iran in the 1970s to founding the largest family owned grocery chain in California. His life's journey is the story of both old world roots and a new world spirit, and the wines of Darioush reflect a harmonious blending of tradition, innovation and individualism.

The wines from Darioush reflect a personal dedication to individualism and craftsmanship. While Napa Valley's reputation and winemaking traditions were historically based in the northern regions of the valley, Darioush ventured south, to the cooler regions. The resulting wines present both exceptional varietal characteristics with a refreshing distinctiveness that every great wine estate should be known for.

Please join us when President Daniel dePolo come to Sweden to meet you personally, and share both stories as well as the wines with the creativity and excellence of Thörnströms cuisine.
